# Spa Care Essentials

## Spa and Equipment Care

Effective medical-grade cleaning and disinfecting products for spa/shower rooms and more. Apollo equipment care products are formulated for the stringent requirements of the healthcare industry. These powerful cleaning solutions are the most effective available, yet competitively priced.

## Why does Apollo recommend a two-step cleaning process?

As stated by the CDC – Cleaning does not necessarily kill germs, but by removing them it lowers their numbers and the risk of spreading infection. Disinfecting does not necessarily clean dirty surfaces or remove germs, but by killing germs on a surface after cleaning, it can further lower the risk of spreading infection. Chemical disinfectants only work if surfaces have been thoroughly cleaned first to remove grease and other dirt.

### Turbo-Clean™ Pre-disinfectant

removes bacteria laden soils and occlusive barriers on all bathing system surfaces. It's so effective it meets every quaternary disinfectant's requirements of pre-cleaning heavily soiled surfaces before chemical disinfecting. Turbo Clean™ Pre-Disinfectant Detergent is completely compatible with Apollo's Remedy® Ultra Violet Water Purification System. Ready to use without dilution on all walls, floors, bathrooms, tubs, showers and equipment. Removes gross soils and occlusive barriers, dislodges scum. Minimizes chemical disinfection when used with UV disinfecting systems, compatible with Remedy™ UV Disinfection System.

### Cid-A-L™ II Quaternary Disinfectant

is an EPA approved and specifically formulated for health care institutional use. At twice the concentration of most brands (one ounce per gallon of water), Cid-A-L™ II is your most effective and economical means of protecting your residents from bacteria, fungi and viruses. It meets all government standards for disinfecting hard, non-porous surfaces. Use it on floors, walls, countertops, furniture, showers, baths and bathing systems. Cid-A-L™ II delivers exceptional germicidal effectiveness – even in hard water.
