

Apollo's Therasol™ Natural Bath Oil

Healthy, elastic skin helps protect against breakdown that can lead to infection, dermatitis and other skin disease. Therasol™ natural bath oil from Apollo helps keep skin healthy. It locks in moisture to make skin smooth, soft and pliable. Used before shampooing, it helps to control flaky or scaly scalps. Used as a foot soak, it softens scaly feet. Applied directly to your resident's wet skin or added to the bathwater, it relieves itching from dry, pruritic skin. An excellent cleanser, Therasol™ also is ideal for cleansing residents confined to bed. Not a soap, its gentle natural oil formulation cleanses, moisturizes and softens residents' skin. Use Therasol™ natural bath oil and, in essence, support nature's own defense against skin breakdown.
