Turbo Clean™

Pre-disinfectant Chelating Detergent

Turbo Clean™ pre-disinfectant chelating detergent from Apollo unleashes its industrial strength cleaner to remove gross soils and occlusive barriers on all whirlpool tub surfaces where bacteria reside. This heavy-duty, chelating detergent dislodges sludge and scum buildup from whirlpool pumps and plumbing that chemical cleaners can't remove. It's so effective it meets every quaternary disinfectant's requirements of pre-cleaning heavily soiled surfaces before chemical disinfecting. Turbo Clean™ is compatible with the Remedy® Ultra Violet Water Purifier; together, they reduce the need for chemical disinfecting between baths. Ready to use without dilution, Turbo Clean™ is ideal for cleaning your bathing systems.

Benefits

- Removes gross soils and occlusive barriers where bacteria reside
- Dislodges scum buildup from whirlpool pumps and plumbing
- Safe on all hard-to-clean surfaces, bathing area walls, floors, kitchens, bathrooms and patient equipment
- Minimizes chemical disinfecting when used with UV disinfecting
- Compatible with Remedy® Ultra Violet Water Purifier
- Ready to use

Choice, Not Chance, Determines Results.
